FOR IMMEDIATE RELEASE

City Implements New Financial Policies and Procedures

KINGMAN, Arizona – February 15, 2018 – The City of Kingman Financial Services Director, Tina Moline, announced today that she has implemented a set of comprehensive financial policies to guide the operation of her department. While the policies cover all aspects of the department, the portions relating to purchasing and credit card use by City employees may be of particular interest to the public. The number of City employees authorized to use City credit cards has been reduced and the spending authorization for many of the remaining employees has been reduced as well. These two actions reduce the City's periodic financial expenditures by over 40%.

Interim City Manager Jim Bacon noted that the new policy and procedures manual was reviewed and approved by Hinton Burdick CPAs and Advisors.

Any questions regarding the City's financial policies should be directed to Tina Moline at 928-753-5561.
